

VividBoard Cleaning Instructions

Cleaning Your Board

VividBoards and their **VividShield™** coating do not require the use of a special cleaner – they can be cleaned with a damp soft cloth.

Please **never use an abrasive cleaner** (Comet, Soft Scrub, etc.) or abrasive or rough brush/scouring pad/towel (ie: SOS Pad, Scotch Brite Pad, paper towels etc.). Always use nonabrasive cleaners and a soft cloth or eraser made specifically for dry erase surfaces. Use of abrasive cleaners, cleaning cloths or towels will negate the limited lifetime warranty on our **VividShield™** coating.

If you have a specific cleaning solution you are concerned about, please contact your Account Manager to discuss.

VividShield™ Warranty

VividBoard's **VividShield™** coating is guaranteed against ghosting, fading and defects in materials and workmanship for the life of the board. The warranty is limited to the replacement of defective boards and does not include removal, installation or shipping costs.

Use of abrasive cleaners, cleaning cloths (i.e. Soft Scrub, Comet, Brillo pad, etc.) or permanent markers will negate the warranty coverage.

Tested & Approved Cleaners

We've tested our **VividShield™** surface with the following cleaners and approved their use to clean and disinfect the surface. Cleaning solutions containing a bleach, ammonia, or hydrogen peroxide content of up to 6% or isopropyl alcohol can be used on a VividBoard without harming the surface.

- Glance SC Glass & Multi-Surface Cleaner
- Dispatch Hospital Cleaner Disinfectant with Bleach
- Cavi Wipes
- Goo Gone
- Clorox Germicidal Wipes
- Steriplex Wipes
